Part 2 – Registration

General Registration

To register a team in the League, all teams must inform the Executive Committee of their interest in the League prior to the team registration date.

The Executive Committee must receive a church's written pastoral consent authorizing their manager to submit and manage a team on behalf of the church.

Once a team is accepted to the League, its managers, coaches, and players require registration through the League's website. Managers will be given login information to access and update their teams roster and information in alignment with the League's Bylaws.

If a team has players under the age of nineteen (19), all managers and coaches of that team must submit their criminal record check with vulnerable sector screening to the registrar by the initial roster submission date.

Players must be at least sixteen (16) years old by December 31st of the current season's calendar year. Players turning fourteen (14) or fifteen (15) in the year 2025 who have played in previous seasons are grandfathered in.

The Registrar will review and oversee the approval process for rosters on behalf of the Executive Committee. Once a participant is approved, they will be visible to managers through the League website.

Team's rosters must be submitted to the Registrar for approval by initial roster submission date unless they have received an extension from the Executive Committee.

Only approved participants will be visible on the League's website and any unapproved manager, coach, or player is unable to participate.

New Teams

New team registration includes a one time registration fee due upon confirmed affiliation into the League as well as their performance bond.

Should a player under the age of nineteen (19) be transferred to a team with a manager who has not already submitted their criminal record check to the League, the roster change request as well as the manager's criminal record check must be submitted together.

Part 4 - League Structure

Regular Season

Playoffs

Each division will hold playoffs with quarterfinals, semifinals, and finals. In a division of seven (7) teams, the top two teams in the standings will be bypassed to the semifinals.

Each round the first seed team will play against the last seed team and will be reset after each round.

All playoff games will include the addition of assistant referees. The cost of referees in quarterfinal and semifinal games will be split by the two participating teams. The cost of referees in the playoff finals will be covered by the League.

Promotion & Relegation

Where possible, promotion and relegation is based on the previous regular season's standings. In general, the top two teams from each division will be promoted while the bottom two teams from each division will be relegated.

Teams selected for promotion and relegation are subject to change at the discretion of the Executive Committee to ensure the divisions are appropriately balanced prior to the start of each season.

Part 5 – Season Schedule

Regular season games will be scheduled between the months of April and June. Games will be scheduled on Mondays and Fridays.

For a twelve (12) game regular season, the schedule is intended to have each team play six (6) home games and six (6) away games. Due to limited field availability in some jurisdictions, some teams may have more than one home field.

All games are to be played according to the schedule issued by the League.

Each team can request two (2) blackout dates prior to the blackout dates request deadline based on the League calendar. Teams are not guaranteed their requested blackout dates.
